Mobile school room car

New perspective for innovative and successful learning

Issue September 2006

Pages 2

The Fujitsu Siemens Computers Mobile school room car offers institutes of learning a wealth of new freedom for computer-supported training sessions. When the car is filled with the appropriate devices teachers can project DVDs by a small beamer, present training content or presentations, use wireless internet connectivity and print with or without cable.

The Mobile school room car is a roll-front cabinet that can be equipped with up to 25 notebooks, a WLAN access point, a small beamer and a printer. Its modern design and sturdy construction using high quality materials make it ideal for use in training environments. All devices within the cabinet are connected to one another, thus only one main supply is needed to operate the Mobile school room car. The Mobile school room car can be completely locked, so that your valuable Fujitsu Siemens Computers components are protected from unauthorized access. Additionally the Mobile school room car is equipped with an "active cooling" system.

It offers countless opportunities for "innovative, new and successful" learning.

Ease of use

- Extendible trays for mounting a teacher notebook that adopts the role of a server within the network
- Removable trays for the student notebooks
- Mounting with original power supply units
- For use with battery: remove the notebook from the tray
- For longer sessions: remove the notebook together with the tray, using the power supply of the single notebook
- Three socket boards (2x10 and 1x5 connections) are provided with power only during the charging process

Reliability

- Solid and stable construction
- Wheeled and thus transportable
- Active cooling system: as soon as the On/Off switch is moved to "On", or the Charge switch is pressed, the fans are activated.
- Notebooks can be charged while the cabinet remains closed and are thus safe from outside interference.
- The fans are positioned in the rear panel of the Mobile school room car behind the centre row of ventilation grilles

Mobile School room car

Order code	S26391-F2000-L100

Delivery volume
Empty Mobile schoolroom car

Capacity
- 1 x teacher notebook / server up to 14-inch display size
- up to 25 students notebooks up to 15.4-inch display size
- 1 x projector
- WLAN access point
- printer

We recommend Fujitsu Siemens Computers systems:

Notebooks:	AMILO Pro Series LIFEBOOK Series
Projector:	SCENICVIEW XP70

Electrical values

Max electricity input:	8A
Rated voltage:	230 Volt AC ~ (+/- 10%)
Frequency:	50 Hz

Operational environment

Temperature:	5°C to max. 25°C
Moisture:	15% to max. 80% relative moisture

Condensation in operation must be avoided.

Storage

Temperature:	-5°C to max. 37°C
Moisture:	5% to max. 80% relative moisture

Condensation in operation must be avoided.

Dimensions

W x H x D:	1.60 x 1.10 x 0.63 m

Weight

Weight (empty):	180 kg
Maximum total load:	310 kg
Maximum tray load:	20 kg
